

Regarding LPFM, this would displace the signal from my favorite station, KLOVE. KLOVE is a contemporary Christian station and the radio in my car, home and office never stray from this station. I am a financial supporter of this station, because KLOVE reinforces my Christian values. KLOVE has also touched all of my children, and convinced them that Christian music is awesome. I never have to change the station due to language or content. KLOVE also has on staff pastors 24 hours a day, and fields calls from those contemplating suicide, among other problems. If people can't hear the message, they won't know such a powerful lifeline is available to them. Please reconsider this proceeding. It will have a derogatory effect on myself, my children, and many others across America.
